## Software Engineer

Passionate Software Engineer and determined learner with a belief that anything can be achieved, no matter how complex. We come into this world with zero information and we learn everything despite starting with a blank slate. This is the essence of what we do – solve problems even without prior knowledge. Driven by curiosity and a love of creating solutions, eager to contribute to a collaborative development team.

## SKILLS & EXPERTISE

Javascript | HTML + CSS + Sass | JQuery | MongoDB | Node | Express | Ejs | React.js | Next.js | JSX | Python | Django | VSCode  
Photoshop | Illustrator | InDesign | Premiere | After Effects | Dreamweaver | Animate | Maya | Excel | Mac | Windows | Linux

## TECHNICAL PROJECT EXPERIENCE

Aug 2021 – Nov 2021

### Marvel Character Comparator | General Assembly Solo Project | Software Engineering Immersive Fellow

- Front-End app comparing objects(Marvel Characters) off an API | HTML, CSS, JS, JQuery, Ajax
- Enter into search field 2 character names. API pulls data to compare stats. Dropdown menu to assist with multiple results.
- Solo project | completed in 1 week | 5 Minute presentation to 30 people | <https://marvel-character-comparator.vercel.app/>

### Body Movement | General Assembly Solo Project | Software Engineering Immersive Fellow

- Full CRUD application using models, schemas, controllers | HTML, CSS, JS, Express, MongoDB, Ejs, .env
- Exercise application. Create, Update, and Delete user-made workouts. Add/remove sets.
- Solo project | completed in 1 week | 5 Minute presentation to 30 people | <https://lennie-project2.herokuapp.com/>

### Contrivia | General Assembly Solo Project | Software Engineering Immersive Fellow

- Full Stack Application using Full CRUD operations | Backend: Express, MongoDB, Ejs, .env | Frontend: React, JSX, Sass
- Trivia application creating trivia questions and answers. Create, Read, Update, Delete present.
- Solo project | completed in 1 week | 5 Minute presentation to 30 people | <https://contrivia.netlify.app/>
